

Make Better Qt Applications. Cut Dev Time.

Felgo SDK

200+ APIs on Top of Qt

- Responsive layout components for phone, tablet, Desktop & Embedded
- Advanced controls and native navigation cross-platform
- Display Cutout & Notch Support
- iOS, Android & Native Style
- **Save up to 90% code compared to plain Qt!**

Native Plugins & Device Features

- QML APIs for native dialogs, camera, sharing and more
- Write native code using JavaScript (no C++ wrapper)
- Push Notifications, Analytics, Facebook, Firebase, Monetization, Beta Testing & Crash Reporting

Android and iOS Native App Integration

- Embed native views and widgets in QML
- Add Qt components to existing Android and iOS applications
- Allows step-by-step migration of native apps to Qt
- Mix Qt with Android Automotive

Qt Dev Tools

Felgo QML Hot Reload

- Instant reload of QML & JS code
- Simultaneous testing on multiple devices at once
- Skip build & deployment to save hours of development time
- Develop for iOS from Windows and Linux
- **Available for all Qt versions & platforms!**

Cloud Services and IDE Support

- Felgo Cloud Builds CI/CD to automate building for Mobile, Desktop & Embedded
- Qt Creator Integration for Felgo Tools
- Visual Studio / VS Code QML Plugins

Felgo Professional Services

All services are offered on-site or remote. Available internationally.

Qt Development Services

- Embedded, Mobile, Desktop & Web
- HMI and UI/UX development
- Standalone or support dev team
- Qt application optimization
- Cross-platform development

Qt Training & Workshops

- Qt & QML development
- Felgo development
- Cross-platform development
- HMI development
- Qt workflow optimizations

Faster time-to-market. Reduced costs. Instant ROI.

Save time
Up to -50%

Save code
Up to -90%

Save money
Up to \$88,000
per year/per developer

Average hourly rate
(company cost) mid-level
developer US: **\$90 /h**

Time savings with Felgo:
20h to 80h /month

Yearly savings:
\$90 x (20h to 80h) x 12

\$22,000 to \$88,000
/year & developer

How Felgo saves 20 - 80h per developer per month

Felgo Professional Services

- ▶ Train your team to develop efficiently and boost productivity
- ▶ Development services to support your team and build your product faster
- ▶ All services are available on-site and remote

Felgo SDK and Qt Development Tools

- ▶ Save time using 200+ QML APIs and seamless integration with native platforms
- ▶ QML Hot Reload instantly reloads QML & JS code to cut dev time and ensure short testing cycles
- ▶ Cloud Builds CI/CD and IDE Extensions for Visual Studio & VS Code to support development

The Felgo SDK saves up to 90% of code compared to pure Qt projects.

The result: less maintenance, fewer errors, faster development, reduced costs.

Case Study:

Qt World Summit
Conference Application

90% less code

No C++ and no custom
solutions for native platform
features and UI/UX.

Join our customers

"We wanted to make a really good product without compromising on quality due to time constraints. This is why we went for a supplier like Felgo. As a result we delivered in time, in budget & with additional functionalities. It was just a seamless way of working together."
