

Make Better Qt Applications. Cut Dev Time.

Felgo SDK

200+ APIs on Top of Qt

- Responsive layout components for phone, tablet & Desktop
- Advanced controls and native navigation cross-platform
- Display Cutout & Notch Support
- iOS, Android & Generic Style
- **Save up to 90% code compared to plain Qt!**

Native Plugins & Device Features

- QML APIs for native dialogs, camera, sharing and more
- Write native code using JavaScript (no C++ wrapper)
- Push Notifications, Analytics, Facebook, Firebase, Monetization, Beta Testing & Crash Reporting

Android and iOS Native App Integration

- Embed native views in QML
- Add Qt & Felgo views to existing Android and iOS applications
- Allows step-by-step migration of native apps to Qt
- Mix Qt with Android Automotive

Qt Tooling

Felgo QML Hot Reload

- Instant reload of QML & JS code
- Simultaneous testing on multiple devices at once
- Skip build & deployment to save hours of development time
- Develop for iOS from Windows and Linux
- Deploy OTA updates of your live application

Cloud Services and IDE Support

- Felgo Cloud Builds CI/CD to automate building for Mobile, Desktop & Embedded
- Qt Creator Integration for Felgo Tools
- Visual Studio / VS Code QML Plugins
- Cloud IDE to Develop Qt Quick in the Browser

Embedded Mobile Desktop Web

Felgo Professional Services

All services are offered on-site or remote. Available internationally.

Qt Development Services

- Embedded, Mobile, Desktop & Web
- HMI and UI/UX development
- Standalone or support dev team
- Qt application optimization
- Cross-platform development

Qt Training & Workshops

- Qt & QML development
- Felgo development
- Cross-platform development
- HMI development
- Qt workflow optimizations

Faster time-to-market. Reduced costs. Instant ROI.

Save time
Up to -50%

Save code
Up to -90%

Save money
Up to \$88,000
per year/per developer

Average hourly rate
(company cost) mid-level
developer US: **\$90** /h

Time savings with Felgo:
20h to 80h /month

Yearly savings:
\$90 x (20h to 80h) x 12

\$22,000 to \$88,000 /year &
developer

How Felgo saves 20 - 80h per developer per month

Felgo Professional Services

- ▶ Train your team to develop efficiently and boost productivity
- ▶ Development services to support your team and build your product faster
- ▶ All services are available on-site and remote

Felgo SDK and Qt Tooling

- ▶ Save time using 200+ QML APIs and seamless integration with native platforms
- ▶ QML Hot Reload instantly reloads QML & JS code to cut dev time and ensure short testing cycles
- ▶ Cloud Builds CI/CD, Web IDE and QML Extensions for Visual Studio & VS Code to support development

The Felgo SDK saves up to 90% of code compared to pure Qt projects. The result: less maintenance, fewer errors, faster development, reduced costs.

Case Study:

Qt World Summit
Conference Application

90% less code

No C++ and no custom solutions for native platform features and UI/UX.

What Our Customers Say

"We wanted to make a really good product without compromising on quality due to time constraints. This is why we went for a supplier like Felgo. As a result we delivered in time, in budget & with additional functionalities. It was just a seamless way of working together."

Senior Manager, Telenav

"I am using Felgo QML Hot Reload and my feedback is.. WOW! It is SO much easier!! So fast! I've several devices connected at once and it works perfectly. This is already speeding up my development massively."
